THIRD QUARTERLY RESULTS ANNOUNCEMENT FOR THE NINE MONTHS ENDED 31 DECEMBER 2017

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

This announcement, for which the directors (the “Directors”) of PF Group Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.

The board of Directors (the “Board”) is pleased to announce the unaudited condensed consolidated results of the Company and its subsidiaries (collectively the “Group”) for the three months and nine months ended 31 December 2017 together with the comparative unaudited figures for the corresponding periods in 2016, as follows:

MANAGEMENT DISCUSSION AND ANALYSIS

Business Review and Outlook

The Group is principally engaged in the provision of (i) securities dealing and brokerage services; (ii) placing and underwriting services; (iii) financing services including securities and IPO margin financing; and (iv) asset management services.

The Hong Kong stock market sentiment was active during the nine months ended 31 December 2017. The market's average daily transaction value for the nine months ended 31 December 2017 increased by approximately 42.8% as compared to the corresponding period in 2016.

During the period under review, the Group's income from the securities dealing and brokerage services and the placing and underwriting services had achieved a remarkable growth of approximately 96.8% and 121.8% respectively as compared to the nine months ended 31 December 2016. Interest income from margin financing also increased by approximately 14.3% from approximately HK\$4.5 million for the nine months ended 31 December 2016 to approximately HK\$5.2 million for the nine months ended 31 December 2017.

On the other hand, fee income from asset management services for the nine months ended 31 December 2017 was approximately HK\$1.2 million, representing a decrease of approximately 68.8% as compared to approximately HK\$3.7 million for the nine months ended 31 December 2016, which was mainly due to the decrease in performance fee recorded. Despite the decrease in fee income from asset management services, during the three months ended 31 December 2017, the Group was engaged by two hedge funds for asset management services. As at 31 December 2017, the Group had total six asset management clients and the total net assets value managed by the Group was approximately HK\$5.1 billion. The management believes that the Group's asset management business will continue to expand in the coming future.

Other revenue for the nine months ended 31 December 2017 was approximately HK\$4.5 million which mainly comprised of referral fee income of approximately HK\$4.3 million.

Overall, total revenue for the nine months ended 31 December 2017 increased by approximately 51.0% or HK\$23.8 million as compared to the nine months ended 31 December 2016 mainly as a result of the increase in income from the securities dealing and brokerage services and the placing and underwriting services.

The Directors are of the view that the Hong Kong and global financial markets are still challenging and full of uncertainties. The Directors and senior management of the Group will continue to monitor the Group's risk and credit exposure prudently, review the working capital level on an on-going basis, keep abreast of the latest developments of statutory requirements and the Hong Kong financial industry in order to maximise returns to shareholders. Going forward, the Group and the Directors shall continue to strive to achieve the business objective to increase the Group's exposure and scale of operations in Hong Kong within the capital markets and to capture a larger market share.

Financial Review

Revenue

The Group's total revenue for the nine months ended 31 December 2017 was approximately HK\$70.6 million, representing an increase of approximately HK\$23.8 million or 51.0% from approximately HK\$46.8 million for the nine months ended 31 December 2016. The increase in total revenue was mainly attributed to the increase in revenue generated from the securities dealing and brokerage services and the placing and underwriting services provided by the Group which was partly offset by the decrease in fee income from asset management services and other revenue.

During the nine months ended 31 December 2017, the Group completed a securities trading transaction in which the Group generated commission income of approximately HK\$2.9 million. Together with the effect of overall positive atmosphere of the Hong Kong stock market during the period, the Group's commission income from securities dealing and brokerage services increased significantly by approximately HK\$3.7 million or 96.8% from approximately HK\$3.9 million for the nine months ended 31 December 2016 to approximately HK\$7.6 million for the nine months ended 31 December 2017.

Placing and underwriting fee and commission income is principally affected by the number of engagements participated by the Group, the size of engagements and the commission rates. For the nine months ended 31 December 2017, the Group completed 34 placing and underwriting engagements with a total transaction value of approximately HK\$1.1 billion (2016: 20 placing and underwriting engagements with a total transaction value of approximately HK\$1.4 billion). Attributed to the increase in number of engagements participated by the Group and the average commission rate, fee and commission income from placing and underwriting activities increased significantly by approximately HK\$28.6 million or 121.8% from approximately HK\$23.5 million for the nine months ended 31 December 2016 to approximately HK\$52.1 million for the nine months ended 31 December 2017.

The Group's margin financing business continues to grow and interest income from margin financing recorded an increase of approximately 14.3% from approximately HK\$4.5 million for the nine months ended 31 December 2016 to approximately HK\$5.2 million for the nine months ended 31 December 2017.

The Group's asset management operations have been resumed in July 2016. As at 31 December 2017, the Group had six (31 March 2017: four) asset management clients and the total net assets value managed by the Group amounted to approximately HK\$5.1 billion (31 March 2017: HK\$119.6 million). Pursuant to the relevant asset management agreements with these clients, the Group acts as an investment manager and provides asset management services to them on a discretionary basis pursuant to each client's investment requirements, objectives and restrictions, and is entitled to (i) management fees on a fixed fee basis or on a percentage basis ranging from 1.0% per annum to 1.5% per annum; (ii) performance fees on a percentage basis ranging from 10% to 20%; and (iii) discretionary bonus. Total fee income from asset management services for the nine months ended 31 December 2017 was approximately HK\$1.2 million, representing a decrease of approximately 68.8% as compared to the nine months ended 31 December 2016, which was mainly due to the decrease in performance fee recorded.

In addition to the above business activities, the Group may on a case by case basis come across other projects, the fee income from which is recorded as other revenue.

Other revenue for the nine months ended 31 December 2016 mainly comprised the followings:

- (i) Pursuant to a placing agreement entered into between the Group and a Hong Kong listed company in September 2015, the Group was initially appointed to place a certain number of shares by 31 October 2015. Subsequently, the said placing did not take place by 31 October 2015, and thereafter the Hong Kong listed company agreed to pay a settlement fee of approximately HK\$1.1 million to the Group which is conditional upon the Hong Kong listed company failing to engage the Group to place a certain number of shares by 30 June 2016. During June 2016, the Group recognised such settlement fee as other revenue as the Hong Kong listed company had failed to meet the aforesaid condition.
- (ii) In September 2016, the Group completed a referral transaction for the acquisition of a controlling stake in a company listed on the Stock Exchange and generated a referral fee income of HK\$6.8 million. Subsequently, the Group had also completed the general offer on behalf of the acquirer and was entitled to a professional service fee and a loan commitment fee of HK\$0.5 million and HK\$2.7 million respectively.

The Group was notified the interest of some investors in trading securities through Shanghai-Hong Kong Stock Connect. However, the Group currently does not have a Shanghai-Hong Kong Stock Connect licence to execute such trades on behalf of these investors. As such, the Group entered into referral agreements with other securities companies in Hong Kong (the “Securities Companies”), who have proper licences, and pursuant to the referral agreements, the Group will refer investors to the Securities Companies (the “Referral”) and is entitled to a monthly referral fee calculated with reference to the revenue of the Securities Companies generated from the referred investors. For the nine months ended 31 December 2017, revenue from other services mainly represented referral fee income of approximately HK\$4.3 million generated from such Referral.

Profit for the period

Profit for the nine months ended 31 December 2017 was approximately HK\$38.5 million, representing an increase of approximately HK\$19.6 million, or 103.6% from approximately HK\$18.9 million for the nine months ended 31 December 2016, which was primarily attributed to the increase in total revenue as discussed above, and the fact that the Group did not incur any listing expenses for the nine months ended 31 December 2017 as compared with approximately HK\$6.9 million of listing expenses recorded for the nine months ended 31 December 2016.

Liquidity, Financial Resources and Capital Structure

During the nine months ended 31 December 2017, the Group mainly financed its operations by internal resources and net proceeds raised from the placing upon listing. As at 31 December 2017, the Group had net current assets of approximately HK\$254.1 million (31 March 2017: HK\$221.1 million), including cash and cash equivalents of approximately HK\$169.3 million (31 March 2017: HK\$106.8 million). The current ratio, being the ratio of current assets to current liabilities, was approximately 1.9 times as at 31 December 2017 (31 March 2017: 3.1 times).

As at 31 December 2017, the Group had no bank borrowings outstanding (31 March 2017: Nil).
